Together Constantly in Prayer

The Paris Agreement was signed in 2015 and saw almost 200 countries pledge to try and prevent global temperatures from rising more than 1.5C above pre-industrial levels.

Fast forward to today.....

'2025 has been the hottest summer on record. A summer as hot or hotter than 2025 is now 70 times more likely'. (Met Office climate Scientists)

'Extreme weather is the UK's new normal says the Met Office'.

Our global warming world of fragile dreams

hopes truly for the best, yet fears the worst might be.

May we not turn our faces from the light,

but seek God's justice, peace and good

in earth and sky and sea.

(Peter Dainty)

Psalm 113 vs 5&6

'Who is like the Lord our God,...who stoops down to look on the heavens and the earth?'

We thank you, Lord, that you are concerned about every detail of our lives. To see Your hand at work in the big things and the little. It is amazing to think that God is involved in each of our lives at the same time with the myriad of detail in each one. This is how we understand and know the meaning of God's Omniscience. We are seen, we are known, we are loved. Hallelujah.

Amen

'Inside every old person is a young person wondering what happened'.
